Always Thoughtful

Outstanding features and benefits

Always Thoughtful...
Bright and friendly
The first diagnosis of a child's special needs is very difficult for parents who have to learn a whole new vocabulary and deal with equipment and treatments that are new and bewildering. With this in mind, the Jenx Monkey has been carefully designed to offer the best in early intervention support in a gentle, bright and friendly way. Parents often comment on the huge difference this thoughtful design has had in helping them accept and use standing equipment for their very young children.

Adjustable and Safe Hip & Chest Strap
The innovative straps close in the centre and are adjustable at each end for length. By adjusting the straps in this way you can ensure the child is positioned symmetrically – helping to keep them upright and comfortable and maximising the benefits of standing.

Quick, Simple and Easy to Use
There are many reasons why the Jenx Monkey is probably the most popular infant prone stander available. Monkey comes as a complete unit meaning that what you receive out of the box is ready to be quickly and easily set up (with very few adjustments required) so your child can start using it straight away!

Visit jiraffe.org.uk or scan the QR code for additional accessory details

Quickly and easily adjustable and fixed allowing you to accommodate the exact proportions of each child.

Flexible Growth
The chest and hip boards can be independently altered and fixed allowing you to accommodate the exact proportions of each child.

Always Encouraging...

Every position a child adopts has an effect on their development and functional movement now and in the future.

Encourages basic movement development
Children gain huge psychological benefits from standing, as well as important physical and development changes.

De-rotational Thoracic and Pelvic Support
Coupled with flexible leg positioning the Monkey prone stander is a great option for almost every child.
A simple, yet highly adjustable standing system, that provides prone to upright positioning for children from 9 months to 4 years old.

**Always Adaptable**

- Adjustable chest, hip and leg positioning pads
- Integrated angle adjustable tray with bowl
- Size 1 sandal

Sandals

Available in 4 different sizes to accommodate any size of feet, even when wearing splints, Jenx sandals are interchangeable across the range of seating, standing and products. Straps upon the back, buckling may stand children into prone standing.

NB: Monkey comes with size 1 sandals as standard – larger children or children wearing splints may find size 2 sandals more appropriate. Sizes 3 & 4 are not appropriate for use with Monkey.

**Grab bar**

Perfect for children who need to fix one hand to increase functionality.

**Sandal Raising blocks**

Available for every size of Jenx sandal, the raising block kits give the sandals that extra bit of height needed. Use to accommodate for leg length discrepancy or height of the footplate on any product to maximise the available growth.

NB: One kit needed per individual sandal.

**Activity Frame**

Great for encouraging head control and hand/eye co-ordination. Easy to attach and adjust. Comes with two clips for attaching toys or other items.

**Always Supporting…**

- Chest, hip and leg support boards
- Chest and hip straps
- Footboard
- 4 lockable, swivel castors

**Always Configurable**
