The Supine Stander 3 by Jenx provides robust and easy to use standing solutions, unrivalled support and safety for children aged from approx. 10 years to adults, up to 100kg.

Standing is a dynamic process, and with this in mind, the Supine Stander 3 has been specifically designed to allow joints to be supported yet mobile, whilst training balance and encouraging development. The frame and its features also provide durable quality, outstanding postural control and the exceptional pelvic stability that is essential for encouraging supported standing.

The frame provides unlimited scope for setting the precise standing angle required for every user. Its smooth and easy angle adjustments take the stander from horizontal to upright, facilitating quick and easy transfers. Furthermore, you can even remove all supports for added ease when hoisting.

**De-rotational Thoracic and Pelvic Straps with Lateral Support Pads**

Straps fasten in the centre and adjust independently from either side, enabling a mid-line position to be achieved and maintained. Buckles and hook and loop fasteners mean that once adjusted correctly, the straps can be fixed, making it difficult for siblings or classmates to tamper with and keeping everything looking neat and tidy! **Support Pads** are available in a range of sizes including High-rise options.

**Polyurethane Boards** Flexible, easy to clean and impervious to fluids, polyurethane boards make the Supine Stander 3 a breeze to clean and keep hygienic.

**Knee Support Pads** Complete with de-rotational knee straps and adjustable padding, to comfortably accommodate fixed knee flexion in standing.

**Abduction Block** Height adjustable **Abduction Block** with simple options to create varying degrees of abduction quickly and easily.
Split Footplate

The split footplate on the Supine Stander 3 enables one foot to be positioned higher than the other to accommodate leg length discrepancy without the need for Sandal Raising Blocks.

Trunk Positioning

For a user who is unable to adopt an upright trunk for themselves, Support Pads and de-rotational straps are available to offer the correct positioning.

The Support Pads can be adjusted for height, angle and distance from each other so users of differing heights and width can all enjoy the same level of support.

Quick and Easy Set-ups

Numbered boards on the back of the Supine Stander 3 mean that set-ups can easily be recorded and recreated - ideal in a multi-user environment.
Always Encouraging

Standing is a great way to improve the user’s outlook on the world and their physical development.

Users gain huge psychological advantages from standing, as well as those important physical and development benefits.

- Improves blood pressure & circulation
- Helps digestion, bowel & bladder emptying
- Encourages bone & muscle development
- Gives a new perspective and ways to participate
- Aids respiration & speech
- Helps relieve pressure created during sitting
- Supports pelvis, thighs & feet so children can join in everyday activities
- Provides opportunities to increase social skills

Smooth & Simple Adjustment

Each user will have a slightly different posture in standing and will require different support. The angle of the support surface can be adjusted from horizontal through to upright, and because the adjustment is infinite, each Supine Stander 3 can be set to exactly the right angle for all users. This allows progress to be monitored and the angle of the board altered in line with changes in ability.

For additional ease, the angle adjustment is power assisted, causing less strain for the carer.
Always Configurable Accessories

The Supine Stander 3 by Jenx is a modular product, allowing you to choose specific accessories to meet the exact requirements of each user.

Supine Stander Frame

Basic Supine Stander unit includes:
- Base with 4 lockable swivel castors
- Polyurethane boards
- Split footplate
- Boards available in 5 colours: blue, pink, green, red and grey.

Moulded Head Support

Simple but effective headrest for those who require minimal head support. Comes mounted on a flexible fixing bracket.

Multigrip™ Head Support

The original and innovative Jenx Multigrip™ Head Support is available in 3 sizes for all Jenx seating and standing systems. All Jenx Multigrip™ Head Supports have a choice of various highly flexible fixing brackets, all of which give adjustment for height, depth and angle.

Head Pad Cushion with Side Supports

Provides simple head support with extra comfort and stability for the user. Consists of 2 small polyurethane side Support Pads in a choice of colours and a black fabric padded head cushion.

Support Pads

Made from flexible and hygienic polyurethane, these Support Pads are easy to attach and adjust to provide hip and thoracic support. The Support Pads come complete with the appropriate size de-rotational strap as standard; enabling a mid-line position to be achieved and maintained.

Flexible Thoracic Support Pads

These slimline and super flexible Support Pads (with straps) are designed to provide outstanding positioning with comfort in mind. All sizes are independently adjustable for height and width to ensure maximum trunk control.

Tray

Removable Tray with contrasting tray edging gives a definitive boundary, particularly useful for users with visual impairments.

Elbow Blocks

Used to encourage arms into a midline position and/or to block excessive retraction.
**Knee Support Pads**
Available in a range of sizes, complete with de-rotational knee straps; the Knee Support Pads remove the possibility of any internal or external knee rotation along with providing effective extension of the knee to facilitate a neutral standing position.

**Flexion Knee Support Pads**
Includes Arched Foam Pads to comfortably accommodate fixed knee flexion in standing. The Flexion Knee Support Pads include a unique de-rotational knee strap which removes any internal or external knee rotation and provides effective support for the knee to facilitate a safe standing position.

**Arched Foam Pads**
Used with Knee Flexion Support Pads or the Abduction Block for extra padding where required.

**PU Spacer Blocks**
For additional abduction or spacing on the Flexion Knee Support Pads. Fully moulded from hygienic polyurethane and simply use hook and loop fastener to attach into place.

**Abduction Block**
Unique, height adjustable Abduction Block with simple options to create varying degrees of abduction quickly and easily.

**Sandals**
Available in 3 sizes, these ensure solid foot placement to give the foundation for effective leg positioning and safe standing. Jenx Sandals are interchangeable across the entire range of Jenx seating and standing products.

**Ankle Snugs**
An optional foot positioning accessory to the standard Sandals. The Ankle Snug offers a unique magnetic buckle fastening mechanism, which can be operated single handed.

**Sandal Raising Blocks**
Available for every size of Jenx Sandals, the Raising Block kits give the Sandals extra height where needed! Use to accommodate for leg length discrepancy or use to raise the height of the footplate on any product to maximise the available growth.

NB: One kit needed per individual Sandal.
Multi-use Tray
A useful surface for work, feeding or play, made from antimicrobial plastic providing a hygienic and easy to clean surface.
