

E-Pacer by Rifton

The E-Pacer is an exciting new addition to the Pacer family, combining the powerful electric lift column and secure body support system of Rifton's TRAM, with the key gait training features of the classic Pacer. The strong and stable frame can accommodate users up to 196cm and 160kg.

INNOVATIVE FEATURE

Built in Scale

The optional scale can pair with mobile devices via bluetooth, enabling carers to track and record a clients weight bearing progress.

INNOVATIVE FEATURE

Body Support

The innovative body support secures the client with a single buckle, allowing the carer to quickly prepare the client for safe gait training.

INNOVATIVE FEATURE

Effortless Lifting

The telescopic lift column allows the E-Pacer to be raised high enough to support a 196cm walking client and then retract down to 83.5cm for compact storage.

INNOVATIVE FEATURE

Extra Stability

The strong and rigid frame gives security for heavier or taller clients.

INNOVATIVE FEATURE

Leg Expander

Widen the leg base for clients needing extra step width or to get up close to a wheelchair prior to transfer.

INNOVATIVE FEATURE

Infinite Control

The same innovative four-function casters as the rest of the pacer family.
