

# Mobyvent by Jenx

## INNOVATIVE FEATURE

### Handy Metal Shelves

These shelves support a ventilator, oxygen bottle, suction apparatus or similar equipment. They are easy to clean due to their smooth surface.

## INNOVATIVE FEATURE

### Foam Covered Handles

The foam covered handles ensure a bottle fits snugly in the cylinder hoops and reduces the noise if the bottle makes contact.

## INNOVATIVE FEATURE

### Practical, Easy to Use Castors

The locking castors on the Mobyvent are durable and provide ease of movement allowing a child to easily transport breathing apparatus or similar around with them wherever they go. The locking feature prevents unwanted movement if required.

The Mobyvent is a handy trolley with shelves to support ventilator, oxygen bottle, suction apparatus or similar so children can bring essential items with them wherever they go.\*

The Mobyvent is designed to clip on to the base frame of a range of Jenx seating and standing equipment to ensure proximity and therefore connection of tubes is maintained. It features two easy-clean shelves that will carry apparatus securely, comfortable hand grips for pushing along and a holder for an oxygen cylinder.

\* Only certain makes and sizes of apparatus are suitable for use with Mobyvent. Please contact Jiraffe for details or refer to the Instructions For Use manual.

**INNOVATIVE  
FEATURE**

**Clips that Attach Mobyvent  
to Jenx Equipment**

Mobyvent is suitable for use with the X-base, Y-base, the Supine Stander and Multistander range. The sturdy clips keep Mobyvent firmly attached to the equipment allowing you to concentrate on your child.

**INNOVATIVE  
FEATURE**

**Holder for Oxygen Cylinder**

Oxygen can travel with your child. The purpose built holder keeps oxygen safe and steady as you move around.

**Always here**
