

Always Supportive

Every position a child adopts has an effect on their development and functional movement now and in the future.

Minimises fatigue and assists activity and functionality

Helps digestion

Encourages bone & muscle development

Assists neutral alignment

Proper support makes it easier for children to join in every day activities

Sitting well helps you breathe more easily

Support of pelvis, thighs & feet forms the foundation of stability

Provides opportunities to increase social skills

Good seating supports, develops and helps provide greater independence and interaction resulting in more smiles for everyone!
